

YOUR JOB SEARCH DOESN'T HAVE TO BE A **HORROR** STORY!

1 Walk with confidence! A positive attitude shows that you're someone an employer wouldn't want to run away from. A good attitude lets recruiters know that you're not a stone-cold monster.

2

Sink your teeth into research! Having a plan of attack and being prepared for interviews will allow you to perform better.

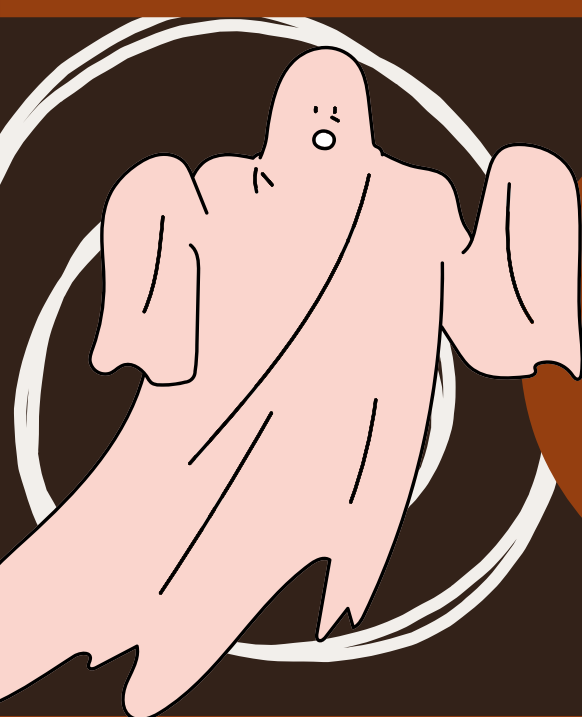

3 Scream out your presence to the world! Self-promotion and networking are critical to job seeking. Building your personal brand can make you as iconic as a movie monster.

3

4

Don't let job opportunities fade away! Proactively expanding your professional network before you begin job-seeking helps you stay ahead of the competition.

5 Don't lose your head over negotiating! Research the current job market to get the salary you deserve! There is more to negotiate than just the \$\$\$. Decide which benefits (such as hybrid work) are essential to you and include these in the conversation.
